Bike basic Lift

Bike pro Stand

Bike pro Mobil

More than 70 years of experience in the industry

For more than 70 years, we have been developing and producing products not only for workholding, but also components and systems for assembly and handling technology in manufacturing. Our products are used in a wide range of industries – from automotive to suppliers. You will find our lifting columns, and rotating and tilting equipment wherever heavy loads must be handled.

Bicycle assembly stands for production and the workshop

While the compact bicycle assembly stand **Bike basicLift** is the result of our tried and tested modular handling technology *moduhub*, **Bike proStand** and the mobile **Bike proMobil** are innovations made especially for bicycle assembly. For some years now, our bicycle products have been used by notable bicycle manufacturers as well as in workshops.

ROEMHELD Bicycle Assembly Stand

Bike *basic* Lift

Manual-hydraulic lifting

MOBILE WORKSHOP SERVICE

Bike *pro* Stand

Electric lifting and rotation

BICYCLE WORKSHOP

Manual lifting and rotation
For mobile applications

INDUSTRIAL ASSEMBLY

Bike *basic*Lift

Katalogblatt M 4.102

- Easy height adjustment without external power
- Compact and sturdy version for use in mobile workshops

YouTube
Watch the video

With the **Bike *basic*Lift**, bicycles and e-bikes weighing up to 40 kg can be lifted to an ergonomic working height using the foot pedal.

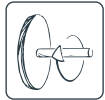

Its stable and compact design allows for ergonomic work in the smallest of spaces.

ROEMHELD

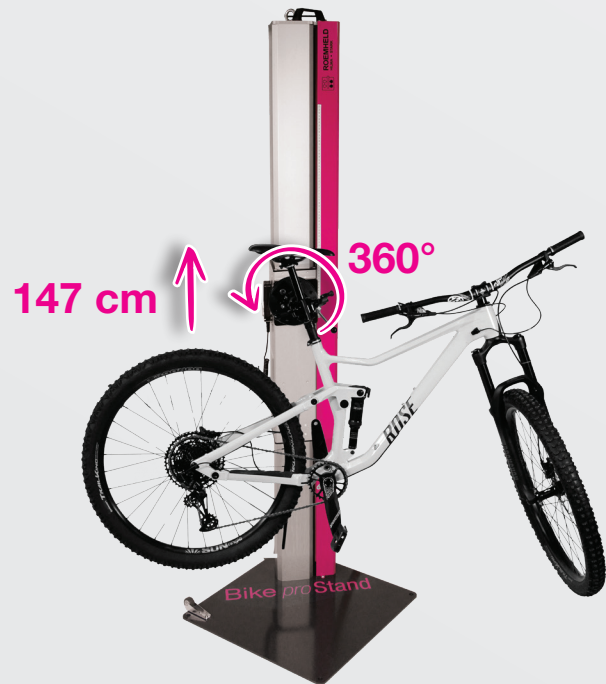

Bike *pro*Stand

Data Sheet M 9.102

- Optimal ergonomics and safe working on the bicycle thanks to electric lifting and electric rotation
- High quality industrial grade with collision shutdown when lowering

Electric lifting and rotation – bicycle handling is a breeze with the **Bike *pro*Stand**. It steplessly lifts and rotates bicycles weighing up to **40 kg** into the desired working position at the touch of a button. The version without a rotary axis can lift cargo bikes weighing up to **80 kg**.

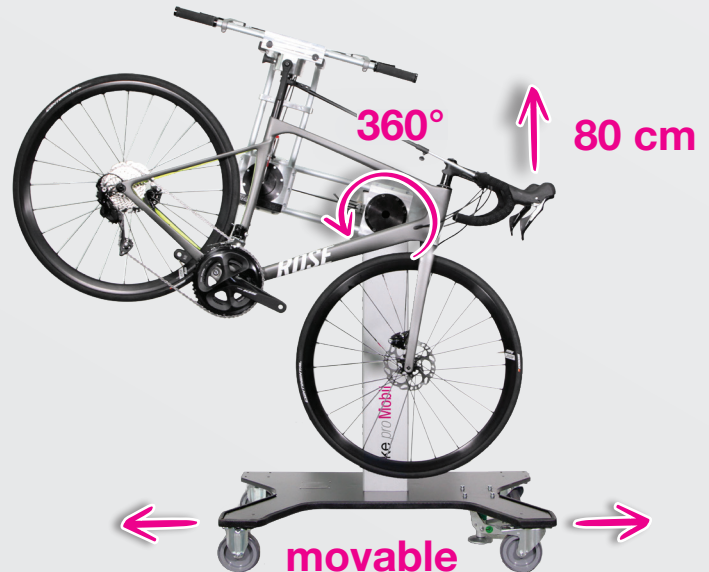

Bike *pro* Mobil

Data Sheet M 9.701

- Ergonomic, efficient and safe working thanks to unique, fast height adjustment and rotation of the bicycle, without external power
- Mobile trolley for flexible use, perfectly suited for one-piece flow assembly

YouTube
Watch the video

With the Bike *pro* Mobil, bicycles up to 40 kg can be lifted and rotated quickly, with little force and without external power. Unparalleled kinematics help to easily achieve any ergonomic mounting height and mounting position by combining two rotary axes and a lateral rotation.

ROEMHELD

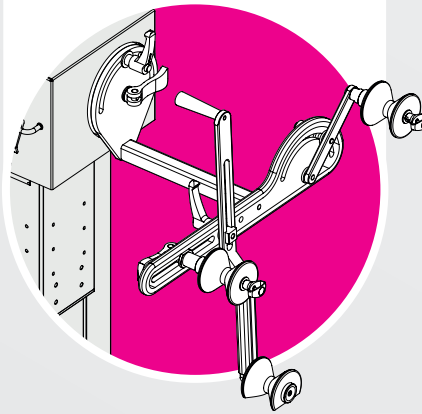

Accessory

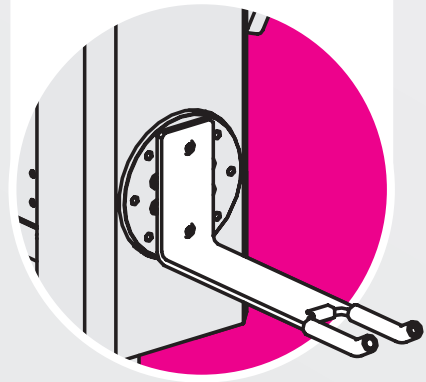

Our bicycle assembly stands can be equipped with almost all bicycle mounts.
We offer several common bicycle mounts as accessories.

Application examples:

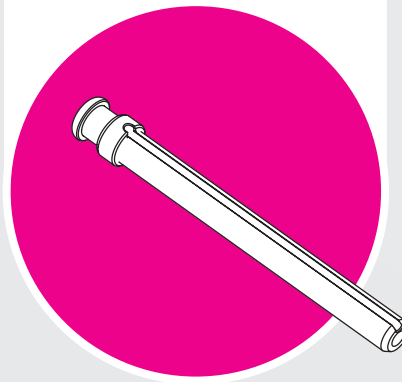

3-point pick-up

Quick Check pick-up

Mandrels

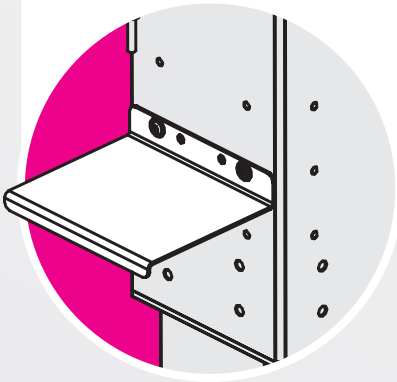

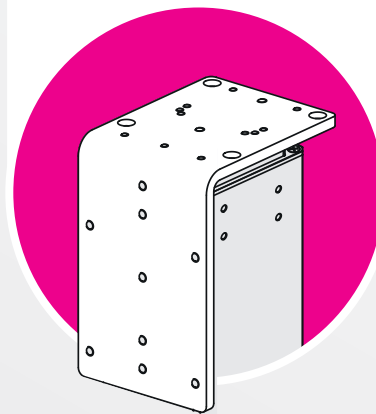

Our bicycle assembly stands can be equipped with shelves and other accessories on request.
Please contact us!

Application examples:

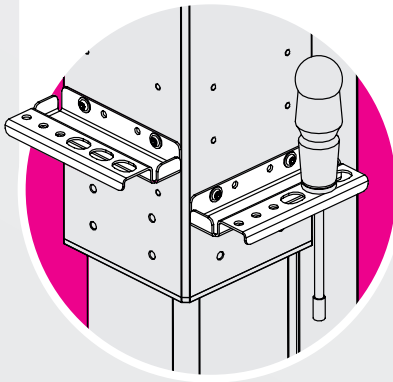

Shelf for magnetic pieces

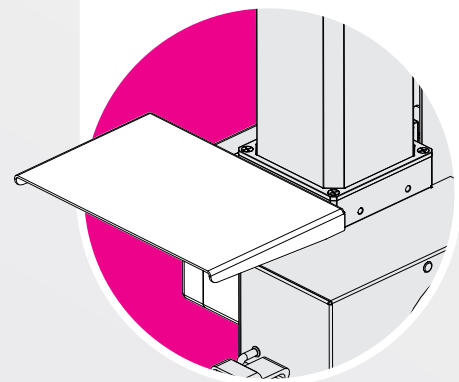

Adapter bracket

Tool holders

PC shelf
